PRESENTATION'S CLIP

Another founder of the firm has frankly admitted that he was fooled by the accounts of the ambitious senior to big clients, such as Citigroup and Agilent, when he scoured satyam's finance satyam's computerized accounts. But when he flagged this with the satyam's finance team, he was fobbed off with the assurance that the accounts would be 'reconciled'. Later, he was 'assured' that the problem has been fixed.

→ There has been no scam that affected the CA and audit firms like that of satyam scam. The increasing nature of these scams has made dependence on such professionals much more crucial highlighting the importance of ethics in their roles.
